Re: **Speed Humps on Lamberton Drive**

Dear Mr. Loughery:

On July 10, 2001, the Kemp Mill Civic Association held a special meeting to determine whether it would continue to support the installation of speed humps on Lamberton Drive. The meeting witnessed an unprecedented turnout of the community, with 340 households represented. The vote held at that meeting was fairly conducted and well-publicized.

In accordance with the results of that vote, I am writing as president and on behalf of the association to **withdraw** the association's endorsement of the speed humps and to communicate the sentiment of the association that the speed humps **not** be installed. It is my understanding, based on past representations made by you, Mr. Wroe and Mr. Genetti, that the Department will abide by that determination.

It is our intention to work with the residents of Lamberton and the surrounding streets to formulate alternatives to speed humps that will address residents' concerns with traffic there. I fully expect and look forward to working with you and Mr. Wroe, as well as with our local police district, to explore these alternatives further in the months ahead.

As always, please feel free to contact me if you have any questions or wish to discuss the matters addressed in this letter. Please also accept my thanks for your patience and courtesy throughout this elongated and trying process.

Sincerely,

Behnam Dayanim
